Safer Homes, Stronger Communities

by World Bank

Best practices in post-disaster housing and community reconstruction are constantly evolving. Technology is changing how reconstruction is done, as is the frequency and severity of the disasters themselves. Reconstruction projects are increasingly focused on the need to reduce future risks by ensuring that what is rebuilt is safer and more disaster-resilient than what was there before. [read more](#)

Atlas of Global Development

This series provides a comprehensive visual guide to the most critical issues facing the world. Using the authoritative statistics from the World Bank's World Development Indicators, it provides a revealing view of the world in which we live. Country comparisons show key development indicators, including economic growth, life expectancy, infant mortality, safe water, population, poverty, and energy use.

Published in association with Harper Collins, the Atlas of Global Development vividly illustrates the key development challenges facing our world today. Social, economic, and environmental issues that are facing the planet are presented by easy-to read, colorful world maps, tables, graphs, text and photographs. Drawing on data from the World Bank's authoritative World Development Indicators, the book brings to life country comparisons of social indicators like life expectancy, infant mortality, safe water, population, growth, poverty and energy efficiency. Issues that have been hitting the headlines such as AIDS, population living below \$1 a day, freshwater, trade are presented giving an unbiased view of the state of the world we live in. This title builds on and replaces the existing World Bank Atlas which has been published by the World Bank for almost four decades.

Publication Date: February 2007**Related Regions:** Global**Related Topics:** World Bank**Keywords:** growth; environmental issues; energy efficiency; key development challenges; infant mortality; population; economic issues; safe water; expectancy; social indicators; poverty; atlas; social issues; data; global development**Document Type**
