Access your password-protected reference library anywhere, at any time.

ENDNOTE[®]

ONLINE

- Download references and full text from just about any online data sources, such as PubMed, GoogleScholar and Web of Knowledge.
- Sync your reference library to multiple computers and your iPad (App Purchase Required)
- Share your references with colleagues and other users around the world.
- Cite While You Write[™] in Microsoft[®] Word to insert references and format papers as you're writing.
- And so much more...

ENDNOTE ONLINE, formerly EndNote Web, is the online counterpart to our popular desktop reference management and bibliography creation software.

Whether you use EndNote online through Web of Knowledge, with EndNote desktop, or on its own — it helps you reduce the time you spend searching, updating, and cleaning your research and formatting documents. Depending on how you access EndNote online, you may see different features and options.

ENDNOTE BASIC If you only have access to EndNote online, and not EndNote desktop, you are considered a 'basic' user. While your feature set is limited compared to those using EndNote online in addition to the desktop, it's still perfect for the new-to-research and writing student.

ENDNOTE ONLINE WITH THE DESKTOP

Once you know the basics, complex research projects no longer seem insurmountable. Moving from writing a research paper to creating a CV, funding application or manuscript is as easy as moving from EndNote basic to EndNote on the desktop. EndNote desktop users get access to additional features and options in the online application that 'basic' users do not.

WEB OF KNOWLEDGE INTEGRATION — Web of Knowledge users, when logged in properly, will see data, links, and additional options with their EndNote online references that came from Web of Knowledge — even if you're a 'basic' user.

To automatically import references into your EndNote library, you can use the Capture Reference button, as well as EndNote Capture toolbars for Internet Explorer (Windows only) or Firefox (Windows or Macintosh).

> Download the Cite While You Write plug-in to insert references, and format citations and bibliographies automatically while you write your papers in Word.

STEP 2: INSTALL PLUG-INS

The first time you sign in to your EndNote account, you will see the "Getting Started" Guide, which offers links to help you collect, organize, and format your references.

To access more of EndNote's features, you can install two types of plug-ins: one for capturing references from your browser window and one that links your online library to Microsoft Word. To get started, go to the Options tab, and select Download Installers. Here, you will see all available plug-ins.

STEP (3: ADD REFERENCES TO YOUR LIBRARY

There are six ways to add references to your library:

By syncing with the desktop, direct export, capture, online search, import text file, and manual entry.

SYNCING WITH THE DESKTOP

After creating and entering your EndNote online account credentials in Sync under the Preferences menu, desktop users can select the Sync button to have their EndNote library available online.

Using Sync will ensure that changes made to your library on the desktop or online are made available immediately and on any platform. This sync capability extends to the EndNote for iPad app.
